

Rajendra Industrial Suppliers
Metal that Matters

Corporate Brochure

We have emerged as one of the leading suppliers/distributors of Industrial raw Materials. Known for being durable and corrosion resistant, these fulfill the requirements of chemical, pharmaceutical and fertilizer industries.

Rajendra Industrial Suppliers
Metal that Matters

- Profile -

Established in the year 2000, **Rajendra Industrial Suppliers** is a well known venture engaged in **supplying/distributing** a comprehensive range of **Industrial Raw Materials**. Our range includes **Aluminum Alloys, Brass Rods, Spark Erosion Copper, Stainless Steel Pipes and Stainless Steel Strips**.

We have devised a manufacture selection procedure to check the financial standing and market reputation of the manufacturers. We only deal with manufacturers who confirm to **IS and BS standards**. Owing to features like **durable and high tensile strength**, these have been fulfilling the requirements of a number of **government, semi government bodies, public limited companies, MNC, defence and their ancillaries**.

Our spacious warehouse, stringent quality testing facility and a wide distribution network facilitate the delivery of consignments of our clients within the promised time period. We follow ethical and fair business practices, which has earned us the trust and confidence of our clients.

With the assistance of our knowledgeable team, we are in touch with the most credible manufacturers and ensuring complete client satisfaction. Our warehouse personnel ensure the safety of our range.

Stainless Steel Products:

We Trade with Stainless Steel Products such as:

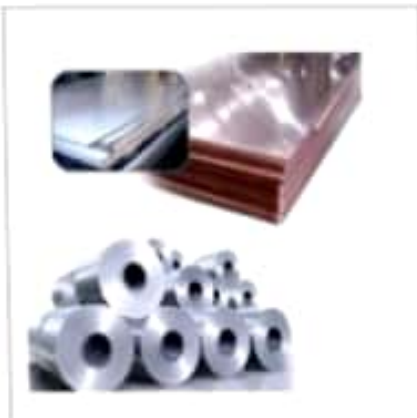

- Flat
- Rods
- Sheets
- Pipes
- Strips etc

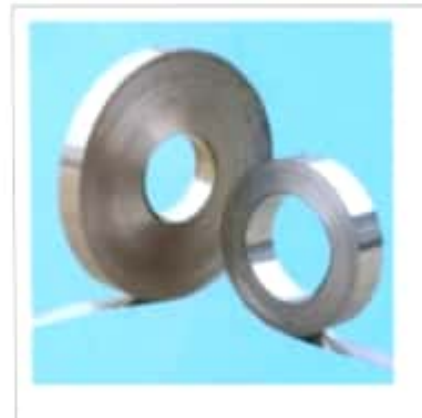

Stainless Steel Sheets

Stainless Steel Coils

Stainless Steel Plates

Stainless Steel Strips

Etched Designed Stainless Steel Sheet:

Not only we use regular screen-printing technique, also a more advance film exposing printing procedure makes etching more accurate and precise. Multi-layer etching can increase the depth and gradation of the sheet. Two-side etching machine makes the etching deeper up to 0.05mm. Series of patterns are available for your preference. We can also make you design pattern better than your requirement.

Decorative Stainless Steel Sheets

Designed Stainless Steel Sheets

Etch Design Stainless Steel Sheet

Stainless Steel Designer Sheet

Copper Products:
